Centers of Excellence at Florida State University College of Medicine

I established five Centers of Excellence at FSU College of Medicine as outlined below.

Center on Terrorism and Public Health: Established in the Fall of 2001, this Center has as its mission to serve as a resource for the education of public health and other health care professionals in the area of weapons of mass destruction. It is structured to assist and work with other state universities and agencies to study, educate, and publish information of use in preparedness and response to terrorism. I was the Director of this Center through 2009.

Center on Patient Safety: Established in early 2002, this Center of Excellence is dedicated to research and education of both health care professionals and the public on medical errors and patient safety. The Center's Director is Dennis Tsilimingras, M.D., M.P.H.

Center for Rural Health Research and Policy: Intrinsic to the mission of the FSU College of Medicine is to provide statewide expertise and training for physicians specifically in the challenges facing the state's rural population. Dr. Gail Bellamy is now the Director of this Center. The Center is endowed by the Blue Cross/Blue Shield of FL Foundation.

Center on Medicine and Public Health: This Center, established in 2003, is dedicated to study and enhance collaboration between the private medical sector and the public health sector. The Center focuses on education, community-based services, workforce issues and core competencies of the two professions. Dr. Les Beitsch (M.D., J.D.) serves as Director.

Center on Global Health: This recently created Center will support global health research, policy implementation, and training. Its Director was Askar Chukmaitov, M.D., Ph.D.
